## Grocery Shopping for Lunch - Soup and Sandwiches

Our class decided to make egg salad sandwiches and soup on Friday. They also thought apples with carmel dip would be a good dessert for the meal. Before going to the store they checked the refrigerator to see if they have eggs. Yes, they did have enough eggs to make the sandwiches.

On Thursday afternoon Hanna, John and Mrs. Brown went to the grocery store to buy the food for the meal. At the store Mrs. Brown pushed the cart, Hanna wrote down the price of the items and John put the items in the cart.

They bought 7 items.

1 loaf of wheat bread	\$ .79
1 bag of chips	\$1.50
3# bag of apples	\$2.29
1 container carmel dip	\$2.49
2 cans of soup	\$2.78
1 bottle of Miracle Whip	\$1.49

Use the story above to answer the questions. Use a calculator to figure out the math questions.

1. How much would 3 loaves of bread cost? \_\_\_\_\_
2. How much would 4 cans of soup cost? \_\_\_\_\_
3. What could you buy for about \$5.00? \_\_\_\_\_
4. What costs less than \$2.00? \_\_\_\_\_

5. How much would 2 bags of chips cost? \_\_\_\_\_
6. Could you buy a bag of chips and a bag of apples if you had \$3.50? \_\_\_\_\_
7. What day did they go shopping? \_\_\_\_\_
8. How many items did they buy? \_\_\_\_\_
9. What was their total grocery bill? \_\_\_\_\_
10. What did they do before they went to the store? \_\_\_\_\_  
\_\_\_\_\_
11. What did the class think would make a good dessert? \_\_\_\_\_  
\_\_\_\_\_
12. What kind of sandwich will the class make? \_\_\_\_\_
13. Name 1 kitchen rule you should always remember to follow. \_\_\_\_\_  
\_\_\_\_\_
14. Name 3 things you would like to make in class.
